Simple Calculator with Logs

An interactive calculator with persistent history

Rahul Raj | 29-07-2025

Key Features

- A basic calculator enhanced with a history log.
- Enables users to review previous calculations.
- Helps users avoid mistakes by tracking history.

Procedure

Development Steps

- ☑ Build a calculator using **HTML/CSS/JavaScript**.
- ☑ Use a **Node.js/Express** backend with **MySQL**.
- ☑ Store each calculation in the **MySQL** database.

Outcomes

★ Provides a better user experience.

★ Supports real-time calculations.

★ Offers persistent history tracking.
